

## Expectations of our Schools and Nurseries

At LtL we are committed to staff safety. We are working to latest Government and World Health Organisation guidance. Please note the following as you prepare for your training session with LtL.

### Ratio's and Precautions

1. There will have been no Covid19 cases in the school for at least 7 days.
2. We are limited to:
  - 30 Adults MAXIMUM, we would PREFER 15 or less.
  - One class of pupils and three adults.
3. The school or nursery is responsible for their staff and pupil hygiene. LtL Staff will be responsible for theirs, bringing with them their own equipment.
4. We reserve the right to cancel up to the day before if either the setting's or trainer's circumstances change considering both Covid-19 and inclement weather conditions.
5. All participants are always required to physically distance from the trainer. If the trainer feels this is not adhered to, they can ultimately terminate the training with no reimbursement.
6. Settings will have in place a Test and Trace system for staff and pupils.
7. Attendees should bring a face mask with them and expect to physically distance from LtL staff.

### Our LtL staff will:

1. Take twice weekly Lateral Flow tests and have the NHS Covid App active.
2. Ensure 24 hours between schools and restricted in travel, allowing time to identify any infection.
3. Be physically distancing, working outdoors, handwashing regularly and wearing a mask when needed.
4. Wear a mask indoors
5. Isolate equipment between schools for 24 hours.

### Clothing and Equipment

- Participants must come dressed in suitable warm and dry outdoor clothing and footwear for the venue used and the anticipated weather.
- All participants must be equipped with their own note taking devices digital or paper.
- No food or drink will be provided by the trainer so participants must organise their own as appropriate to the length of the training.
